May 2021

Dear members,

This was a very different year for the High Performance Committee (HPC). We were unable to assess our athletes in the provincial group because of Covid-19 pandemic which is still hitting us. All events, camps, races, loppets and meetings were canceled because of the sanitary measures imposed by the Public Health of NB. Our athletes had to turn to virtual events and out-of-province competitions were simply canceled.

The HPC is still working on establishing the Provincial Team Athlete Support Group which includes the Coach, Assistant Coach and Technical person which has been left vacant since the end of the 2019 season. We have set up a coaching committee to help at this level in order to fill a bit with the lack of support and since a manager has been added. We are always trying to find a way to look at how to keep the development of our athletes with the appropriate support.

Finally, the HPC is actively working on the criteria for the next season regarding our athletes who will be able to qualify for the provincial team. We are also working on the criteria and planning for the 2023 Canada Winter Games and in work to recruit the support team for these next games.

Thank you,

Jacques Haché
Chair of the High Performance Committee
